If parents and grandparents could arrange it, they'd take all the measles, sore throats, chickenpox, runny noses, black eyes, skinned knees and loost teeth that plague their little loved ones for, if there is one thing a parent or grandparent can't stand, it's to see the little ones suffer.

And there is at least one grandfather in town today who's hopping mad. He'd do something about it, too, if only he knew where to start to clean up the whole mess.

His granddaughter was bitten by a mosquito last night.

For weeks he has placated irate townspeople and neighbors who have complained bitterly and fearfully about the horrible smell of the borough's antimosquito campaign. He has tenderly explained the importance of going along with this sort of thing "for the good of the community." He has trained himself to hold his breath for four and a half minutes while they heavy fog envelopes his street after the sprayer goes by, and this is specially difficult and dangerous for him since he winded himself in a big race years ago.

But he's about ready to join his neighbors in an anti-"antimosquito campaign" campaign. He's ready to demand an investigation of the investi-(Continued On Page 3)

Red China Says Khrushchev SALARY RAISE Taylor Says 57 CASES ON RenegedOnBombAgreement FOR HASH; ADD To Please Gen. Eisenhower 3 TEACHERS

By FRANCIS K. ICHIGAYA

Associated Press Staff Writer TOKYO (AP) - Red China charged today that Soviet Premier Khrushchev welshed on a promise to teach it how to make atomic bombs in order to please President Eisenhower at the Camp David talks four years ago.

In a biting statement broadcast by the New China News Agency, a "spokesman for the Chinese government" said the Soviet Union on June 20, 1959, "when there was not yet the slightest sign of a treaty on stopping nuclear tests, refused to provide China with a sample of an atomic bomb and technical data concerning its manufacture.'

DENIED HELP

The statement said this "unilaterally tore up the agreement on new technology for national defense concluded between China and the Soviet Union on Oct. 15,

"This was done as a presentation gift at the time the Soviet leader (Premier Khrushchev) went to the United States for talks with Eisenhower," the statement asserted.

Raising a new angle in the Moscow-Peking feud, the Red Chinese spokesman charged that Soviet leaders "would not hesitate to obliterate the international Charles Baker celebrated their position" of Communist East Ger- 50th wedding anniversary Saturmany "in order to curry favor day evening at an open house with U.S. imperialism.

gation to see if the whole thing is worth the smell-and there are those who insist that the smell is less tolerable than the affliction. He's ready to rip the hoses off the sprayer next time it goes by and his reasoning makes a lot of sense -to him, at least.

"Maybe we didn't have any mosquitoes in the first place,' he said, "Maybe this whole thing was a hoax. Maybe the whole thing was a psychological experiment by the borough to make us THINK they were creating a bugless paradise for us. Maybe they knew all the time that if they smelled up the town twice a week people would be so concerned by the unpleasantness that they'd be diverted from the real menace. Maybe this is psychological salvation,"

At any rate, this particular grandfather refuses to turn the other cheek. He's determined there will be no flies or mosquitoes on his little one. He's no longer impressed by all this jazz about what a great job the borough is doing

to eliminate the mosquito

population. He bought a large can of Flit and a pint-sized hand sprayer this morning which he plans to take home so that grandmother can spray the place before the baby comes

to spend the evening. And he wants the sprayer to stay out of his alley and off his street, by golly.

FIRE CARNIVAL

chairman of the McSherrystown Fire Company's carnival commit tee, Bernard C. Brady, reported to the firemen at their postponed August meeting Wednesday evening that gross receipts from the carnival were "good" but that no exact figures on profits are yet available. Not all of the bills have been received, he said.

President Gene Murren presided at the meeting and Secretary Dan Greenholt called the roll Treasurer Brady reported that bills paid on the new carnival grounds to date total \$11,433.44. Building Chairman Harry Von Sas reported on work yet to be done on the carnival building but said the main part of it is finished. Firemen thanked both members and nonmembers who helped with the work.

Fire Chief James A. Noel reported three fire calls in the last month. Four men were elected to active membership in the company. In line with requests, it was announced that the company will have its radio channels "split."

Members who will help tear down carnival stands are asked to report on the grounds next Monday evening at 7 o'clock. Walter Zimmer was appointed

Reports showed the company had receipts of \$713.41 and paid bills totaling \$542.65. The company announced a flat charge of \$20 will be charged for rent of the fire hall and the company janitor will handle cleanup work after the hall has been rented.

ADVERTISE IN THE TIMES

The POWER of FAITH BY WOODI ISHMAEL

It was only natural that Saint Patrick should return as a missionary to Ireland. As a boy of 16 he had been captured by Irish marauders in a raid in his native town in Western England. He was held in bondage for six years, as a shepherd, by the Irish Chieftain, Milchu. While tending the herds he perceived the true meaning of Christianity. He had been born and raised in a Christian home toward the end of the fourth Century, but as he relates, "... in a strange land the Lord opened the blind eyes of my unbelief."

to be a monk at the Monastary of Lerins. Later he returned to Ireland, and little by little he won the support of the Irish chieftains against the Druid priests. In 432 he was consecrated Missionary Bishop of Ireland. Saint Patrick established over 359 churches, baptized 12,000 converts and ordained a great many priests until he was well over 90 years of age.

He escaped on a boat bound for France, and there spent a number of years studying

There are many legends concerning the patron saint of Ireland, but this we know: he found Ireland wholly pagan and died leaving it Christian.

Mining Outfit Moves Town Field Narrows In Hershey Series Into New Area On Trailers To Dig Titanium Deposit

TAHAWUS, N.Y. (AP) - The TAHAWUS, N.Y. (AP) — The hamlet of Tahawus is packing its children, its bags, its houses and children, its bags, its houses and its churches and moving 10 miles down the road.

There the drab mining community of 600 persons will be transformed into Winebrook Hills, an 80-acre place with home owners, taxes, circular drives and streets bearing elegant names like Henderson Lane.

It is suburbia with a difference. Winebrook Hills is in the middle of the highest peaks in the Adirondack forest.

reer-and the money will come." That is the advice Danny Thomas has for young performers these days. Danny can cite his own career as proof.

Thomas is a wealthy man who stars in his own television cries and heads one of the me successful program packaging companies in the business. It is producing five network shows next season. He often recalls the advice given to him by Abe Lastvogel, his agent.

NEVER REGRETTED IT

"It was in 1943," Thomas said. "I got an offer to play at the Roxy Theater in New York for \$3,750 a week. I rushed to Abe to talk about the news. But he just shook his head.

"He told me that he had a better date for me-in the European theater of operations. The war would be over sometime: Lastvogel said, and the guys would come home and wonder where I was when they were fighting.

"He said that I'd better go, even if I had to take a little less mon-

"'How much less?' I asked. Well, \$3,600 less,' he said. I went. took my \$150 and I've never regretted it."

Danny has done so well that a couple of seasons back he was making plans to taper off his appearances in the "Danny Thomas Show" to a point where the show could roll along without him. Last season with his real wife and his television wife, Marjorie Lord, he took off for Europe. They made some shows in Europe but the bulk of the programs were made in Hollywood, using the two children in the cast, and Sid Melton and Pat Carroll.

As usual, Thomas and Sheldon Leonard, his partner, will use the show occasionally as the incubator for their new program ideas.

HOSPITAL AID IN THIS STATE

HARRISBURG (AP) - Starting next March, Pennsylvania will employ a new concept in aiding private hospitals which provide care for needy persons.

Gov. Scranton signed into law Tuesday a measure designed to more nearly meet the actual cost of care by replacing the present flat grant of up to \$10 for each patient with a purchase-of care

The new plan will provide up to \$20 per patient for the first 10 days of hospitalization, \$12.50 for the second 10 days and \$10 for the third 10 days.

It also will provide for up to 60 days of nursing home care. And, for the first time, sectarian hospitals will be eligible for

the aid. State officials estimated the new program will cost \$3 million above the present \$15 million given to hospitals annually.

"This program should open a new era of better facilities and more resources for the care of the medically indigent," Scranton

Always the heart

of our business

Why do most drugstores sell everything from breakfast to dance wax . . .? The answer is simple. It is a

matter of economic necessity. Americans, thank goodness, are generally healthy and there are not enough prescriptions to keep all drugstores going. Thus, we sell a variety of merchandise. By so doing we are able to stay open and render assistance whenever and wherever it is needed. Prescription service, however, continues to be the heart of our business and we are always pleased to assist you when medication is needed.

AP)-Mrs. John F. Kennedy holding the President's hand and smiling slightly, left the hospital Wednesday

The President and Mrs. Kennedy walked slowly down the two stone hospital steps and the short distance to a waiting blue car, which drove them to a nearby helicopter pad. The President helped Mrs. Kennedy into the car.

Mrs. Kennedy had a long hairdo, vastly different from the bouffant ones she usually wears.

The Red Chinese Communists Are Troublemakers BRIGHT BOOTS Of The Far East, Asserts AP Correspondent

By WILLIAM L. RYAN AP Special Correspondent

If the Soviet-Chinese Communist split persists, Peking can be expected to throw its weight around in Asia, even to the point of generating dangerous-looking

How far will the Chinese go? Will they risk open and direct hostilities with the United States? The changes are against it,

even though the Chinese today seem more anxious than ever to nail down their claim to dominating influence in Asia.

But Peking's troubles with the Kremlin can impel the Red Chi. nese to increase pressures around the perimeter of Asia, not only as a result of Chinese frustration with the Moscow policies, but as a means of embarrassing and punishing Premier Khrushchev. RESUME PRESSURE

One way of this would be to resume pressure on India's borders. The Chinese already are in sharp conflict with the Russians over policy toward India. For a long time the Russians have been ardently courting the Indians, and to have India threat-

barrassment, With Tibet as the staging area, the Chinese Communists can be expected to renew military pressure toward India's borders eventually, although not to the point of starting any prolonged

military conflict. Similarly, Peking's anger with Moscow may lead the Chinese toward more reckless thrusts in to Indochina. It would be no surprise if the Chinese now, with the hearty cooperation of Ho Chi Minh's North Vietnamese Communists, tossed overboard completely the careful strategy of Moscow with regard to southeast Asia, and stepped up the Red drive to envelop both South Viet

The tug of war between you and Junior on rainy days may soon be a thing of the past, and -surprise of surprises - kids may even want to wear those one-time pesky overshoes even in bright, sunshiny weather.

This new day is about to dawn thanks to new design concepts in children's rubber overshoes, improved materials and new manufacturing techniques.

One of the new styles represents a radical departure from all previous children's rubbers. Made by a compression-molding process from pure gum rubberjust like the rain footwear made for Dad-it's styled in adult fashion for both boys and girls.

Looking like a sleek speedboat, the rubbers have a large fanned tongue that functions as a kind of shoe horn, making it easy to put on and take off. Pebble-grain side welts and reinforced toes and heels are other design features. Scores of crisstraction and longer wear.
